Sub: Consideration of renewal application dated: 12-01-2001 of Sri.S.K.Pani for moulding sand over an area of 20.83 Hectares in Irani village, Ranebennur taluk, Haveri district for a period of 20 years. – reg.

Read: 1.Your renewal application No.04 AML 2001, dated 12-01-2001.

2. This office notice No. ಗಭೂಇ/ಗಗುಶಾ/ಮೌ.ಸ್ಯಾಂಡ್/2012-13/2650-84, dated 02-07-2012.

3. This office notice No. ಗಭೂಇ/ಗಗುಶಾ/ಮೌ.ಸ್ಯಾಂಡ್/2012-13/3273-3297, dated 23-07-2012.

1. A mining lease was sanctioned to Sri.S.K.Pani for moulding sand over an area of 20.83 (50 acres) hectares in Irani village, Ranebennur taluk, Dharwad district for a period of 10 years from 15-01-1982 vide ML No.1800. The said lease came to be expired on 14-01-1992. Further 1st renewal of mining lease granted on 10-09-1992 for a period of 10 years w.e.f. 15-01-1992 vide ML No.2154. Further the lessee has made renewal application on 12-01-2001.

2. The said application was processed and sand samples from the area were collected and analyzed by the mineral technologist of this office. The analysis proved that the clay content in the sand is less than 5% the IS specification for natural moulding sand (IS 3343-1965) vide page 4 Para 5.1 specified that the moulding sand of different grades should contain 5% to 20% clay. Therefore, the sand available in this area cannot be classified under natural moulding sand.

3. The geological studies No.104 is published by the Department of Mines and Geology in the year 1975. It establishes that all the sand deposits in Tungabhadra course in the surveyed area have total reserves of 1047405 tonnes. This sand can be used for general constructions, filter beds, grinding and polishing and foundries. The classification has not been made due to non-availability of resources (Para 15.4 page No.18 of study report). It is also fact that the sand deposit based on parameters like grain size, shape, specific gravity of grains and velocity of stream, the change in quality is also expected.

4. The matter of renewal was pending for long time hence notice was issued to the applicant on 02-07-2012 to appear before this authority on 23-07-2012 for making presentation of his case and the matter was adjourned to 16-08-2012. Sri.S.K.Pani appeared on 16-08-2012 and submitted his written arguments, wherein it is stated that the officers of this Department have collected the samples from the leased area in his absence. He further stated that the Department have conducted the chemical analysis of the entire Tungabhadra river sand the same has been published by this Department in the Geological studies No.104 and in the report it is stated that sand available can be used for both construction purpose and also for industrial purpose. He further stated that Geologist of the Department conducted the chemical analysis of the Tungabhadra river sand and discovered that the sand contains 90% of Silica (SiO_2) and 2% clay, hence it was ordinary sand and it is very much necessary for the Department to produce the document in this regard and also stated that the major mineral can be used for minor mineral under Rule 27(o) of MCR 1960 and having permitted the lessee all these years to mine ordinary sand, renewal cannot be refused on the ground of non-availability of moulding sand in Tungabhadra river bed.

5. Availability percentage of moulding sand in Tungabhadra River Bed stretch from Konanathambige village to Hammige village stretch between Bellary and Dharwad district was the subject matter of WP No.16119/97, 49376/04, 41990/11 and connected revision petitions before the Central Mines Tribunal pursuant to the Central Mines Tribunal order No.270/2011 dated 31-03-2011 in revision application No.13/1/2011-RC-1 this authority on 12-12-2011 had addressed a letter to the Head of the Department of Civil Engineering, Indian Institute of Science requesting specific opinion about the kind of sand to enable this authority to pass a fresh order as per the Central Mines Tribunal. The Indian Institute of Science in their letter dated 13-06-2012 furnished the technical note on the "Natural Moulding Sand for use in Foundries" based on the test reports forwarded by this authority. The gist of the note is as follows:

6. As many as 30 sand samples collected from different locations in Tungabhadra river beds of Nadiharalalli, Irani, Hirebidiri, Konanatambige, Somalapura, Medleri, Udagatti, Belur, Hiladahalli, Chikkakuruvathi, Chandapuri and Nasipura villages of Ranibennur taluk, Kanchanagatti, Havanur villages of Haveri taluk tested by Department of Mines and Geology by following IS 1918 Code guidelines and by Indian Bureau of Mines Laboratories by following chemical analysis process were tested to ascertain percentage of "Natural Moulding Sand for use in foundries". Based on percentage of clay content and grain size distribution ascertained from physical test following IS 1918 code guidelines and percentage of SiO_2 (Silica) ascertained from chemical analysis samples of Konanatambige, Somalapur, Medleri and Hiladahalli were found fit to classify/ categories as moulding sand for foundry use / applications. Whereas the procedure adopted by IBM laboratories for assessing sand samples for their suitability as moulding sand does not confirm to the IS code (IS 3343 and IS 1918) specifications and guidelines. Analytical results of sand samples generated by the Indian Bureau of Mines laboratories (given in Table 2) cannot be considered for examining their suitability as foundry sand following the guidelines of Indian Standards Codes (IS 3343 and IS 1918 specifications.)

7. Seven samples sent by the Department to Indian Institute of Science correspond to different locations of Tungabhadra River Bed from Konanathambige, Somalapura, Medleri, Udagatti, Belur, Hiladahalli the area of moulding sand identified in the said location put together is 50 acres. One single largest block in the said area is 30 acres and another single largest block is 20 acres only. Further according to test report of Indian Institute of Science samples from Belur locations do not reveal moulding sand fit for foundry application. In this view of the matter extent of single largest block of 30 acres or 20 acres is likely to be reduced. At any rate grant of lease for moulding sand to an extent of 30 acres or 20 acres is likely to overlap or interfere with the area of quarrying lease for ordinary sand.

8. ISI specification for natural moulding sand (IS 1387-1959) illustrates that the occurrences of natural moulding sand deposists may be one foot to five feet in thickness. The sand deposits are recovered from major rivers of Karnataka such as Cauvery, Tungabhadra, Krishna, Kabini, Karidra, etc., the minor rivers for the purpose of moulding sand samples were collected from all the existing mining leases granted in Tungabhadra river bed for evaluation of moulding sand deposits. On chemical analysis it is found, almost all the samples indicated that they come/fall under ordinary sand category.

9. Therefore grant of lease for moulding sand is impractical and not in public interest. The details of samples and their analysis report is enclosed as Annexure-1. Apart from the technical aspects, there is one another bigger dimension to the whole issue. In pursuance of several Government decisions, Karnataka State Sand Policy was framed and notified on 29/01/2011. The policy was incorporated in KMMCR – 1994 vide amendment dated 2/7/2011. A separate chapter on sand mining and regulation has been included. As per the sand policy and KMMCR, the sand mining in the entire State is done by Public Works Department. District Sand Monitoring Committee under the chairmanship of Deputy Commissioner has been constituted to regulate and monitor the sand mining and related issues. This Committee also decides the rate at which sand will be sold from PWD blocks/stockyards. In the Haveri district the sand cost is about Rs.400/- M.T. The entire money earned through sale of sand is deposited in the Department of Mines and Geology revenue head of account. Therefore, in the same area where largest available quantity is ordinary sand, moulding sand wherever available is also available only in pockets. Besides sale of ordinary sand yields revenue of about Rs.400/- M.T to the Government whereas lessee would have paid a royalty of only Rs.30/- and also ordinary sand is made available at reasonable rates to the Public / Government civil works. Allocating mining leases on large river beds with meager moulding sand deposits and vast ordinary sand deposits, only encourages illegal ordinary sand mining, loss of Government revenue and not in public interest.

In the light of the above facts and circumstances I proceed to pass the following order subject to the final orders of the WP No.41990/2011 filed by Smt.Jyothi Manjula V/s State before the Hon'ble High Court of Karnataka, Bangalore:

Order

No.DMG/MLS/04 AML 2001/12-13, Dated: 5th February 2013

I, H.R.Srinivasa, IAS, Director of Mines and Geology, Bangalore in exercise of conferred under Government Notification No.CI 3 MMN 95, dated 27-05-1995 do hereby reject the renewal application No.04 AML 01 dated: 12-01-2001 of Sri.S.K.Pani for moulding sand over an area of 20.83 Hectares in Irani village, Ranebennur taluk, Haveri district.

(i) Board reserves the right to cancel the sanction accorded without assigning any reason if the discharge is not meeting the prescribed standards."

7. Substitution of regulation 16.- In the said regulations, for regulation 16, the following shall be substituted, namely:-

"(16) **Irrigation with sewage or industrial effluents**: - Direct disposal of sewage or industrial effluents for irrigation of crops to be used for human consumption or for washing of cattle is prohibited."

8. Substitution of regulation 19.- In the said regulations, for regulation 19, the following shall be substituted, namely:-

"(19) **Punishment for certain offences:** Whoever contravenes any of the provisions of these regulations mentioned in the first column of the following Table-II; shall be punishable with fine which may extend to the amount specified in that behalf in the third column of the said Table-II, and in the case of a continuing contravention or failure with an additional fine which may extend to the amount specified in the fourth column of that Table-II, for every day during which such contravention or failure is continued."

9. Insertion of new regulation 20.- After regulation 19 of the said regulations, the following shall be inserted, namely:-

"**20. Industries which are Seeking water supply and Sanitary connection:-** The Red Category industries are highly polluting industries and the sanitary connection may be sanctioned only if the industry is having a treatment plant and the treated effluent is discharged into Board sewer. The list of industries Categorized under Red category is given below,-

I. RED CATEGORY OF INDUSTRIES.-

(1) Nuclear power and related projects such as Heavy Water Plants, Nuclear Fuel Complex Rare Earths.

(2) Airports (except minor ports and harbours).

(3) Petroleum Refineries including crude and product pipelines.

(4) Petrochemical complexes (both Olfinic and Aromatic) and petrochemical intermediates such as DMT, Caprolactam, LAB etc., and production of basic plastics such as LDPE, HDPE, PP, PVC.

(5) Petroleum storage, gas filling and transfer facilities.

(6) Chemical fertilizers (Nitrogenous and Phosphatic other than single superphosphate).

(7) Pesticides (Technical) (Except Formulation).

(8) Bulk drugs and pharmaceuticals (except formulation).

(9) Exploration for oil and gas and their production, transportation and storage.

(10) Synthetic rubber.

(11) Asbestos and Asbestos Products.

(12) Hydrocyanic acid and its derivatives.

(13) (a) Primary metallurgical industries (such as production of Iron and Steel, aluminium, Copper, Zinc, Lead and Ferro Alloys).

(14) Dry coal processing / mineral processing industries like ore sintering, benefication, pellatisation, etc.

(15) Coke oven by – products and coal tar distillation products.

(16) Coke making, coal liquification and fuel gas making industries.

(17) Chlor – alkali industry.

(18) Integrated paint complex including manufacture of resins and basic raw-materials required in the manufacture of paints.

(19) Paints, enamels and varnishes.

(20) Viscose staple fibre and filament yarn.

(21) Storage batteries integrated with manufacture of oxides of lead and lead antimony alloy.

(22) Thermal power plants (including coal, oil, nuclear, agro waste, etc., and barge mounted co generation).

(23) Mining projects (major minerals) with lease area more than 5 hectares.

(24) Highway projects.

(25) Tarred roads in Himalayas and / or Forest areas.

(26) Distilleries (except re-distilling and bottling).

(27) (a) Raw skins and Hides (including processing of internal organs) / (b) Unhairing, soaking, Deliming, Bating of hides.

(28) Slaughtering of animals, rendering of bones, washing of meat ad meat processing.

(29) Leather industry including tanning and processing.

(30) (a) Pulp, Paper and Newsprint.

(b) Kraft paper mills.

(c) Manufacture of pulp-wood pulp, mechanical and chemical (including dissolving pulp).

(31) Dyes and Dye Intermediates.

(32) Pigment dyes and their intermediates.

(33) Foundries (individuals).

(34) Electroplating.

(35) Surface coating industries.

(36) Bleaching.

(37) Degreasing.

(38) Phosphating.

(39) Pickling and tanning.

(40) (a) Miscellaneous glassware without involving use of fossil fuel combustion.

(b) Glass and Glass products involving use of coal.

(41) Surgical and medical products containing prophylactics and latex products.

(42) Instant Tea / Coffee Processing.

(43) Glue and Gelatin. (Except vegetable glue).

(44) Metallic Sodium.

(45) Manufacture of photographic films, papers and photographic chemicals including film processing.

(46) Phosphate rock processing plants.

(47) (a) Cement plants with horizontal rotary kilns including bagging.

(b) cement plants with vertical shaft kiln technology.

(48) Manufacture of lubricating oils and grease.

(49) Vanaspathi, hydrogenated vegetable oils and industrial purposes.

(50) Sugar Mills (white and Khandasari).

(51) Potash manufacturing.

(52) Electro-thermal products (artificial abrasives, calcium carbide, etc.)

(53) Phosphorous and its compounds.

(54) Acids and their salts (organic and inorganic).

(55) Nitrogen compounds (cyanides, cyanamides and other nitrogen compounds).

(56) Explosives (including industrial explosives, detonators and fuses).

(57) Phthalic anhydride.

(58) Processes involving chlorinated hydrocarbon.

(59) Chlorine, fluorine, bromine, iodine and their compounds.

(60) Synthetic fibres.

(61) Fibre glass production and processing.

(62) Industrial carbons (including graphite electrodes, modes, midget electrodes, graphite blocks, graphite crucibles, gas carbons, activated carbon, synthetic diamonds, carbon black, channel black, lamp black, etc.,).

(63) Electro-Chemicals.

(64) Polypropylene.

(65) Chlorates, Perchlorates and Peroxides.

(66) Synthetic resin and plastic products.

(67) Dyeing and printing.

(68) Chemical industries.

(69) Cooking of fibres and digesting.

(70) Pulping and fermenting of coffee beans.

(71) Processing of fish.

(72) Vegetable oil refinery.

(73) Manufacture of soaps and detergents. (Except tiny / cottage unit).

(74) Manufacture of insecticides, fungicides, herbicide and pesticides.

(75) Natural Latex. (Excluding tiny / cottage unit).

(76) Hazardous waste processing facilities and dump sites.

(77) All barge – mounted power plants.

(78) Import and storage of hazardous chemicals.

(79) Import and storage of oil.

(80) Paint manufacture.

(81) Lead refining.

(82) Vinyl resin.

(83) Engineering industries (with electroplating and heat treatment).

(84) Holiday resorts, Beach Resorts and jungle resorts. (With electroplating).

(85) Tourism projects coming under CRZ.

(86) Incineration plants.

(87) Abattoir.

(88) Wire drawing process involving pickling etc., except cold process.

(89) Electric bulb filament processing.

(90) Mining and quarry industries.

(91) Tyre manufacture.

(92) Composite textile processing (except spinning).

(93) Printed circuit board manufacturing units.

(94) Fish processing with peeling.

(95) Hotels with electroplating.

(96) Paper board and straw boards (manufactured using pulp).

(97) Galvanizing.

(98) Formulation of Pesticide, herbicide, insecticide and fungicide.

(99) Aquaculture pond including prawn hatcheries.

(100) Separation of milk and whey.

(101) Manufacture of Chocolate, cocoa, mass etc., (other than confectioneries).

(102) Common disposal facility – hazardous waste, bio medical waste.

(103) Liquid propulsion and rocket testing facility.

(104) All CETP's.

(105) Polyster filming yarn.

(106) Audio & video film processing including polyester film processing.

(107) Shaving blade manufacturing.

(108) Automobile body building with metal processing.

(109) Fire Crackers.

(110) Tobacco products including cigarettes and tobacco processing.

(111) Naval Base.

(112) Rubber reclaiming.

(113) Lime kilns.

(114) Refractories.

(115) Nylon Plants.

(116) Stone crushers.

(117) Dairy.

(118) Food processing.

(119) CNS Shell oil manufacture.

(120) Hospital, nursing homes, veterinary hospitals diagnostic laboratories covered under BMW rules organizations.

(121) Composting of press mud using spent wash.

(122) Manufacture of office and household equipments and appliances using fossil fuel for combustion.

(123) Manufacture of organic nutrients including use of spent wash from disyillery.

(124) Manufacture of Bio fertilizers involving spent wash.

(125) Manufacture of Bio Pesticides.

(126) Bio mass power generation.

(127) Meta Amino Phenol.

(128) Research laboratories involving chemicals / animals.

(129) Recycling of Ferrous / non ferrous metal units covered under HWM rules.

(130) Recycling of spent oil / used oil covered under HWM Rules.

(131) Municipal Solid Waste treatment and disposal facility.

(132) Coke oven plant.

(133) Sponge iron unit.

(134) Hot mix plants.

(135) Lead Recycling units involving melting.

(136) Independent ore / mineral crushing units.

II. ORANGE CATEGORY OF INDUSTRIES.- The Orange category industries are moderately polluting industries and the sanitary connection may be sanctioned if all the parameters specified in the amendment approved in the Board are complied with. The list of industries Categorized under Orange Zone is given below.

(1) Manufacture of office and Household equipments and appliances without use of fossil fuel.

(2) Distillation of alcohol / stillage evaporation.

(3) Manufacture of mirror from sheet glass and photo framing.

(4) Surgical gauges and bandages.

(5) Automobile servicing and repair stations.

(6) Formulations of pharmaceuticals.

(7) Potassium permanganate.

(8) Fragrance, flavours and food additives.

(9) Flour mills with wastewater generation.

(10) Washing of fabric.

(11) Trimming, cutting, juicing and blenching of fruits and vegetables (fruit processing, pulping, etc.,).

(12) Washing of equipments and regular floor washing using considerable cooling water.

(13) Steeping and processing and distillation.

(14) Filtration, centrifugation and distillation.

(15) DM plant exceeding 20 Kilo Liters per day capacity.

(16) Solvent extraction plants (excluding refining).

(17) Hotels with laundry.

(18) Rerolling mill.

(19) Ceramic tiles and products (other than small ceramics).

(20) Milk chilling center.

(21) Shell grit and shell grit powder.

(22) Hatcheries.

(23) Cattle feed and poultry feed.

(24) IMF bottling plant.

(25) Plywood manufacturing particle boards and veneers.

(26) Engineering industries with spray painting (without electroplating and heat treatment).

(27) Automobile leaf springs.

(28) Foam rubber.

(29) Fenny manufacture.

(30) Pulverising activity.

(31) Tamarind powder.

(32) Sago units.

(33) Salt manufacturing units.

(34) Malted food (except packing).

(35) Washing of Fabric and Jean washing and laundry.

(36) Fish processing without peeling.

(37) Boiled rice (steamed).

(38) Surgical and medical products not containing prophylactics and latex product.

(39) Vegetable glue.

(40) Blending of Lubricating Oil and Grease.

(41) Gherkin Industries.

(42) Industrial estates / areas.

(43) Holiday Resorts / Jungle resorts with laundry.

(44) Mining of Minor Minerals.

(45) Industrial gases other than Nitrogen, Oxygen and Carbon Di-Oxide.

(46) Stone cutting and polishing using water.

(47) Arrack Bottling.

(48) Soft drinks, aerated waters excluding pulp based with production capacity more than 10,000 bottles of 300ml equivalent / bottle.

(49) Mineral water more than 10,000 liters / day.

(50) Mechanized concrete batch mixing plants.

(51) Cement bulk storage attached with bagging plant / bulk supply in tankers.

III. GREEN CATEGORY OF INDUSTRIES:- The Green category industries are less polluting industries and hence the sanitary connection may sanctioned**.** The list of industries Categorized under Green Zone is given below.

(1)
(a) RCC Railway Sleepers.
(b) Pre cast RCC members such as columns, electrical poles, Chejjas.
(c) RCC Spun pipes, Hollow bricks.
(d) Mosaic tiles.
(e) Inter locking paving blocks.
(f) Fly ash bricks.

(2)
(a) Manual and wire cut bricks.
(b) Roofing tiles, ridges, decorative tiles.
(c) Terra-cotta.
(d) Stone ware pipes.
(e) 2.5. Refractory brick

(3) Cashew Nut processing including cashew roasting.
(a) Coffee curing, roasting and grinding.
(b) Tea Leaf processing including re-packing.
(c) All hotels, Bar and Restaurants, resorts (without laundry and electroplating notlocated in CRZ areas, reserve forests and not included in EIA notification).
(d) Kalyanamantapams and community halls.

(4) Industries under Item No.7.1 to 7.7 without washing dyeing, and other water based finished operation.
(a) Garment stitching.
(b) label manufacturing.
(c) Cotton and woolen hosiery apparels.
(d) Cotton knitting including socks, shoe lace.
(e) Cotton spinning, yarn doubling and weaving.
(f) Handlooms and power looms.
(g) Carpet weaving.
(h) Silk twisting (excluding dyeing and de-gumming).

(5) Industries under item No.8.1 to 8.4 excluding tanning operations.
(a) Ready made leather garments.
(b) stitching of shoe uppers.
(c) Assembly of shoes and leather chappals.
(d) Conversion of finished leathers such as manufacture of bags, suitcases, etc.

(6) Items No.9.1 to 9.5 without rubber reclaiming / reprocessing.
(a) Tread rubber including pre-cured rubber.
(b) Tyre retreading (cold and hot process).
(c) Rubber tubes.
(d) Rubber foot ware
(e) Rubber molded articles like gasket, washers, rubber mats, rollers etc.

(7) Poultry Farms and hatcheries excluding prawn hatcheries

(8) Flori-cultures and horticultures.

(9) Block making printing offset printing, book binding, screen printing.

(10) Rice Hulling and Phova manufacturing industries.

(11)
- (a) Wooden furniture, carpentry units.
- (b) Steel furniture manufacturing without powder coating units and without generation of trade effluents.
- (c) Bamboo and cane products.
- (d) Saw Mills.
- (e) Manufacturing of veneer only.

(12) Fish net manufacturing without dyeing.

(13) Automobile body building without generation of trade effluents, repair shops without water washing, wheel alignment centers.

(14) Body building of wooden boats and trawlers.

(15) Assembly units under item No.18.1 to 18.7 (without electroplating, heat treatment, surface finishing such as pickling, phosphating, de-rusting, degreasing, PCB manufacturing).

(16)
- (a) Electrical appliances including washing machines and refrigerators including other home appliances.
- (b) Electronic equipment such as TV's, Radios, VCR, UPS, Computer, Telephones, electronic toys, etc.
- (c) Air Coolers, Air conditioners.
- (d) Bicycle Assembly.
- (e) Motor and Pumps without foundry.
- (f) Transformer assembly, Motor rewinding.
- (g) Weighing machines.

(17) Tablets, capsules formulations (dry process).

(18) Ground nut decorticating units

(19) Manufacturing of agro-based fuel briquettes

1.3 The overall promotion procedure shall incorporate transparent, objective and credible methodology of analysis of the merit and credentials of the applicants based on weightages given to the performance of the candidate in different relevant dimensions and his/her performance on a scoring system proforma, in prescribed score card.

1.4 (i) Evaluation of research publications shall be as per prescribed Score Card. Popular articles, if any, published by the candidates shall be considered only in the concerned discipline/assigned work. Appropriate weightage for such publications shall be given as per the score card.

(ii) At the time of assessing the quality of publications of the candidates during their promotions, the committee shall have to be provided with the publications, which could be considered by the committee constituted for the purpose.

1.5 The process of promotions should involve inviting the biodata with duly filled score card based template and reprints of requisite number of publications of candidates, wherever necessary.

The publications submitted by the candidate shall be provided to the subject experts for assessment before the interview and the evaluation score of the publications provided by the experts shall be factored into the weightage scores while finalizing the outcome of promotion by the committee.

1.6 A teacher who wishes to be considered for promotion under CAS may submit in writing to the University on or after the date of eligibility, that he/she fulfils all qualifications under CAS and submit to the University the Score card based work done report, duly supported by all credentials. In order to avoid delays in holding Committee meetings in various positions under CAS, the University should immediately initiate the process of screening/selection, and shall complete the process within six months from the date of application. If a teacher submits the bio-data for assessment for promotion after the date of eligibility due to any reason, the date of eligibility for promotion will be the date of submission of bio-data for promotion. Further, in order to avoid any hardships, candidates who fulfill all other criteria mentioned in these Regulations, as on 24 March, 2010 and till the date on which this Regulation is notified, can be considered for promotion from the date, on or after 24 March 2010, on which they fulfill these eligibility conditions, provided as mentioned above.

1.7 A teacher shall have earned annual increments regularly during the assessment period for CAS promotions.

1.8 Candidates who do not fulfill the minimum score requirement under the Score card based system will have to be re-assessed only after a minimum period of one year. The date of promotion shall be the date on which he/she has successfully got re-assessed.

1.9 CAS promotions from a lower grade to a higher grade of Assistant Professor shall be conducted by a “Screening cum Evaluation Committee” adhering to the Score Card system.

1.10 The “Screening cum Evaluation Committee” for CAS promotion of Assistant Professors from AGP of ₹.6000 to ₹.7000 and from ₹.7000 to ₹.8000 shall consist of:

a. The Vice Chancellor as the Chairperson

b. One of the Directors / Deans

c. The concerned University Head of the Department and

d. One subject expert in the concerned subject nominated by the Vice-Chancellor.

The quorum for the committee meeting shall be three including the subject expert and the Chairperson.

1.11 The Screening cum Evaluation Committee on verification / evaluation of score secured by the candidate through Score card system shall recommend to the Board of Management about the suitability for the promotion of the candidate(s) under CAS for implementation.

1.12 The composition of the Selection Committee for promotion from AGP of ₹.8000 to ₹.9000 and from ₹.9000 to ₹.10000 shall be similar to that for direct recruitments, **provided that no teacher other than those with PhD shall be promoted or appointed as Professor.**

1.13 All the procedures outlined above, shall be completed on the day of the selection committee meeting, wherein the minutes are recorded along with scores obtained and recommendation made on the basis of merit and duly signed by all members of the committee in the minutes.

1.14 CAS promotions being a personal promotion to the incumbent teacher holding a substantive sanctioned post, on superannuation of the individual incumbent, the said post shall revert back to its original cadre.

1.15 The incumbent teacher must be on roll and active service of the University on the date of consideration by the Committee for CAS Promotion. However, if the assessment of the teacher/ scientist is delayed he/ she may be considered for promotion even after retirement.

1.16 (a) If a candidate applies for promotion on completion of the minimum eligibility period and is successful, the date of promotion will be from that of minimum period of eligibility.

(b) If, however, the candidate finds that he/she fulfills the eligibility conditions at a later date and applies on that date and is successful, his/her promotion will be effected from that date of application fulfilling the criteria.

(c) If the candidate does not succeed in the first assessment, but succeeds in the eventual assessment, his/her promotion will be deemed to be from the later date of successful assessment.

1.2.1 Ten percent of the positions of sanctioned posts of Professors in the University may be upgraded to the new HAG scale of ₹.67,000- ₹.79,000/- (annual increment @ 3%) with no grade pay and persons with a minimum of ten years of teaching/research/ extension experience as Professor either in the pre-revised scale of Professor's pay or the revised scale pay will be eligible for promotion to the higher grade of Professorship on satisfying the required minimum scores, assessed by a duly constituted Expert committee, and such teachers promoted to the higher grade shall continue to be designated as Professor (HAG). As this elevation to HAG scale for Professor is applicable to only university departments, additional credentials are to be evidenced by:

(a) Post-doctoral research outputs of high standard;

(b) Awards / honours /and recognitions;

(c) Additional research degrees like D.Sc., D.Litt., LlD, etc.; patents and IPR on products and processes developed / technology transfer achieved in the case of teachers in science and technology.

The selection is to be conducted by the University by receiving duly filled-in proforma from eligible professors based on seniority, three times in number of the available vacancies. In case the number of candidates available is less than three times the number of vacancies, the zone of consideration will be limited to the actual number of candidates available. The assessment process shall be through an Expert-Committee evaluation of all credentials submitted. The Expert Committee shall comprise three persons of eminence in the concerned subjects who either are serving or retired and of the rank not below Deans/Directors/Vice-Chancellors or equivalent cadres. All the Experts of the Committee shall explicitly mention in their recommendation whether the candidate is eligible for placing in the new HAG scale (₹.67000-79000 without any AGP). The names of all the recommended candidates will be pooled at the University level and based on seniority and the availability of the number of posts, the University shall place the candidates in the new HAG scale (₹.67000-79000 without any AGP). The candidates whose names have been recommended for placement in the new HAG scale (₹.67000-79000 without any AGP), but not considered for want of vacancies, shall be kept in reserve for a further period of three years and shall be placed in the new HAG scale (₹.67000-79000 without any AGP) as and when vacancies arise. If any candidate is not recommended by the Committee for placement in the new HAG scale (₹.67000-79000 without any AGP), he/she may apply once again after a gap of three years. No separate interview need to be conducted for this category.

1.3 The PPMC shall act as Internal Quality Assurance Cell (IQAC) in the University with Vice Chancellor as chairperson. The IQAC shall act as the documentation and record-keeping Cell for the university.
